OPERATORS Request for Proposals

Q & A 5 – Via Email

Friday, September 14, 2018-Tuesday, September 18, 2018

Q5: Please clarify if we are allowed to leverage “up to 10%” or “up to 14%” of the total budget to defray the amount (equal to 42%) of WIOA funds that must be budgeted for training. On page 39, Section 3.10 of the RFP, it states that “up to 14% of their combined total adult and dislocated worker formula fund allocation may be leveraged for training services” whereas in [Proposer Conference] Q&A Response {to question #12} it states that “up to 10% of the total budget may be used to defray the amount (equal to 42%) of WIOA funds that must be budgeted for training”

A. The RFP is correct. The legislation allows the Local Area to leverage an amount up to 10% of their total adult and dislocated worker amount. However, as most training expenditures and leveraged dollars come from the AJCC contractors, the City currently requires an amount equal to 42% of a contractor’s total formula allocation to be expended on training and allows contractors to apply leveraged training resources up to an amount equal to 14% of their total formula allocation. Proposals may use the 14% training leverage amount for their proposal budgets, however, please note the caveat for actual contracted amounts on page 39 of the RFP, “These amounts may be adjusted to ensure the City attains its training expenditure goals.”
