Covered California sees WSC/AJCC as key partners in implementation of the ACA and
is looking for input during the session. The session will discuss how soon the 2.2 million
unemployment insurance claimants will be notified regarding the Covered California
Health Insurance Plans. Please see the attached flyer for more additional information.
BACKGROUND:
There are currently 780,000 Los Angeles County residents who are eligible for subsidized coverage. The goal of Covered California is to make it simple and affordable for Californians to purchase high-quality health insurance and access financial assistance to pay for coverage. One can shop online, over the phone, or in person to find the right health care insurance option. Through Covered California, both individuals and small businesses can compare different health insurance plans. Individuals can learn if they qualify for federal financial assistance that can lower the cost of health insurance. Individuals also will be able to find out if they are eligible for health programs like Medi-Cal. In addition, employers with fewer than 25 full-time workers will be able to find out if they qualify for a small business tax credit that can help cover the cost of providing employee health care. To learn more about the organization that runs Covered California, please visit www.hbex.ca.gov.
