JobsLA.org A New Seamless Online Search Engine for Job Seekers and Employers

JobsLA.org is now online with thousands of job listings in the Los Angeles area. The new state of the art site is **free** to job seekers and employers. Anyone with a computer can access the site.

Job seekers have all the tools necessary to find a job, build or upload a resume, create cover letters, locate training and education opportunities, explore career options, labor market information, salaries and apply for a job.

Employers can use the site to find qualified candidates, post job listings and recruit candidates.

The site operates in real time, and any job that is posted on the internet including on government websites, corporate websites and media postings will be listed on JobsLA.org.

If you have a computer and online access, JobsLA.org offers job seekers and employers a way to find a job or post a job without leaving home or the office!

JobsLA.org is funded through the U.S. Department of Labor in collaboration with the California Employment Development Department and sponsored by the City of Los Angeles Economic and Workforce Development Department and the City of Los Angeles Workforce Investment Board.
